Tony and Graeme,  
Race Bike Services, Lonsdale SA.

I write this letter to thank you for your ongoing professional performance in relation to the servicing and maintenance of my motorcycle over the past 3 years.

Being a motorcycle enthusiast, I have searched far and wide for a mechanical workshop which embraces the emotional connection with motorcycling in the same way I do. I have found this in your workshop and in yourselves as individuals.

Your *"nothing is too hard"* attitude and enthusiastic approach are refreshing to say the least. Your attention to detail, knowledge, equipment and workshop setup comes together to provide the complete package to meet all of my motorcycle maintenance requirements. Race Bike services are a **one stop shop** where I feel confident that you will care for my machine in the same way I do.

As a customer I feel I am valued and treated with courtesy and respect, components which I have found sadly lacking in other service providers.

I will continue to use your services as long as I have a bike and will encourage others to do the same. I am happy to be contacted by any person seeking reference to the quality of your work.

I have attached a photo of the bike after your last service and detailing efforts.

Great work guys and again, many thanks.

Kind regards,  
**Peter McWhinnie**
