

A big thanks to TONY and team at RACE BIKE SERVICES for the support of our race team JON DANIELS RACING . The quality of the work provided has always been exceptional from a great team of guys dedicated to race bike performance.

Recently collecting our bike, after major mechanical problems on track, and working through nights and weekend to deliver it back in time for our next ASBK race was an absolute credit to them and very much appreciated. As our team becomes more professional we are keen to find skilled people who can help us through, the recent trackside assistance at Mallala and at interstate tracks over the years has been a very useful resource for us. The team's suspension and technical knowledge is proven and their commitment to professional racing is commendable.

We certainly recommend RACE BIKE SERVICES to other racing teams .

JOE FALZON – Team Manager
JON FALZON – Mechanical Engineer
DANIEL FALZON – rider (currently 1st place
ASBK 600cc Superstock championship 2012)
